COVID-19 Resources

- As we’re sure you are hearing, awareness of and concerns about the recently discovered coronavirus (COVID-19) continue to rise. Pi Beta Phi strives to make certain you and your chapter sisters are as prepared as possible. [Here is a link](#) to an emailed communication that was sent to Chapter Presidents, Vice Presidents Finance/Housing and their AAC counterparts. We encourage you to read this in its entirety to learn how Pi Beta Phi is recommending chapters stay healthy and alert during this time.

- **Facility Resources:** Outside of these practices, as volunteers who manage the upkeep of our facilities, we would recommend the following preventative actions as a local house corporation.
  - **Inform others.**
    - The CDC offers a number of [printable resources](#) for public use. We encourage you to print and post around your living space any of these resources to assist in education and prevention.
  - **Be prepared.**
    - Have disinfectant wipes and hand sanitizer available throughout your living space at all times.
    - Make sure that all paper products (tissues, paper towels, toilet paper, etc.) are fully stocked and include enough for two additional weeks before a reorder is needed.
  - **Talk to your cleaning company.**
    - Make sure they are disinfecting all high touch hard surface areas each time they visit the facility. This includes counters, doorknobs, bathroom fixtures, etc.
    - Make sure all bathrooms are fully stocked with soap and paper towels. Make certain there is extra available for restocking in times the cleaning company is not onsite.
  - **Talk to your food service providers.**
    - Make certain you know about their emergency plans and who you should speak to with questions.
    - Ask about the nonperishable food items they have available and ensure there is supply for up to two weeks if needed.
